Corporate Fact Sheet

OVERVIEW

Global Edge Software Ltd is a leading embedded software solutions and services company serving the Consumer Electronics, Networking / Communication, Automotive and Automation industries. Established in the year 1992, Global Edge with its team of 300+ system engineers has excelled in transforming its customers' business vision into reality by offering superior, cost effective, quality engineering solutions. Operating from a state-of-the-art development center in Bangalore, Global Edge offers a unique combination of Research and Development, Product Engineering and Software Development Services. Global Edge works closely with its customers in providing cutting edge solutions that meet their strategic objectives.

Industry Focus

GlobalEdge caters to a diverse segment by providing embedded software services and IP based solutions. Customers leverage our extensive technology expertise and ready to deploy software components for various product initiatives. Our technology expertise spans the design, development, integration and testing phases; thus providing the customer the required support at all the stages of Product Development. GlobalEdge has been successful in providing end to end software support by working closely with many product companies. GlobalEdge has a strong portfolio of software components that have helped our customers bring feature rich products to market in a timely and cost effective manner.

TECHNOLOGY OFFERINGS

Wireless

- WLAN 802.11 a/b/g/n
- UWB / Wireless USB
- Bluetooth
- Mobile Applications

Multimedia

- Audio Codecs
- Video Codecs
- Speech Codecs
- Telephony
- Streaming

Protocols

- Networking Protocols
- VoIP – SIP / MGCP
- iSCSI
- IMS
- Network Management
- OpenView, SNMP,
- MTP, PTP, PictBridge

GlobalEdge Embedded Technology offerings include a comprehensive array of design, development and testing services and solutions across various technology domains like Wireless, Multimedia and Protocols. Our engineering teams have strong expertise working on various embedded Platforms and Operating Systems.

SERVICES OFFERED

- Driver Development
- Firmware Development
- Board Support Packages
- Application Development (PC & Device)
- Porting and Integration
- Validation and Testing
- Maintenance and Support

Platforms: x86, ARM (7/9/11), Motorola Coldfire, Freescale i.MX Series, Dragonball

Operating Systems: Linux, Windows, Nucleus, ThreadX, QNX, pSOS

INTELLECTUAL PROPERTY

- PacketCable Solution
- SIP / IMS, MGCP/NCS based VoIP Suite
- Serial2Wifi
- USB-Over-WiFi
- Micro AP
- Fiber to Home Set Top Box Solution
- Codecs : H.264 baseline Decoder, G.723.1, G.729 a/b, G.168
- USB : MTP and PictBridge Solution
- Test Automation Tools

BOARD MEMBERS

Harish Bijoor - Brand Domain Specialist - "Harish Bijoor Consults"

MP Kumar - CEO and Chairman - GlobalEdge

Phaneesh Murthy - CEO iGate Global Solutions

Shankar Venkataraman - Partner - Global Technology Ventures

MANAGEMENT TEAM

M P Kumar, Founder, Chairman & CEO

Mahendran A – VP & Head of Delivery

Ian Carvalho, Chief Architect

Ramesh D – General Manager Finance

QUALITY CERTIFICATIONS

- SEI CMM Level 5

- ISO 9001:2000

- ISO 27001:2005

Why GlobalEdge

GlobalEdge brings to the table an undiluted technology focus of over 15 years. Having developed deep partnerships with leading Semiconductor and OS vendors, GlobalEdge offers a whole range of software solutions that accelerates the customer's product rollout time. Mature development processes, flexible business models and proven track records; altogether have positioned GlobalEdge as a capable offshore software vendor for your cutting edge product initiatives.
