

REINVENT AND REDEFINE WITH
THE **INTELLIGENCE OF THINGS™**

Our Story

Headquartered in Bangalore, GlobalEdge Software is a product engineering company that has been in the business of embedded software solutions and technologies for over 15 years. We deliver customized and rigorously-tested solutions in five key industry verticals: Semiconductors, Automotive, Consumer Electronics, Telecommunications and Industrial Automation.

GlobalEdge provides solutions that enable its customers to deliver state-of-the-art technological solutions. Leveraging a variety of platforms from Platform Engineering to Wireless and the Cloud, GlobalEdge has joined forces with the biggest names in global electronics and connectivity to deliver optimum capabilities. Our customers are located in all geographies from North America to Europe and Asia-Pacific and constitute some of the biggest global Tier 1 players.

GlobalEdge is fully compliant with current global standards in embedded software and Internet of Things. We give our customers the competitive edge and empower them by providing across-the-board services that includes product design and development, testing, validation and certification.

Why GlobalEdge

GlobalEdge has the smartest engineers transforming businesses in the semiconductors, automotive, industrial automation, telecommunications, and consumer electronics domains. Our dynamic talent pool of over draws upon rich and diverse expertise and is adept in applying our proprietary combination of platform, connectivity, and cloud engineering technologies to help you drive business value. We, at GlobalEdge, empower our customers and enable them to stay ahead of the curve.

With the dynamic e market, we have evolved to keep pace with the latest technology trends and emerged as the preferred Chip-to-Cloud partner. Our products are aligned with the latest technology trends. We connect things, devices and people to enable our customers take their business operations the next level.

Our Mission

“Empower global customers to create a smarter, connected world through future ready solutions”

Our Values
